

# Thanks for Downloading

Hey friends, it's Rose.

I am the creator of Signature By Rose and your #1 planner addict. But I also love throwing a good party! 🎉

At some point as a mom, aunt, or sister you will want to throw a birthday party too.

This printable will save you a lot of brain cells!

Some things to note:

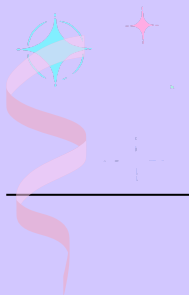

This checklist doesn't give you a step-by-step how to throw a party. It is what it is y'all, a checklist.

Also, to keep things cute as a button, I couldn't include 'to create a cleaning list' (if your party is at home). For that matter, you could mow your lawn if it's a summer party.

Of course, I couldn't create every single thing you'll need, because your life is uniquely special. But I will say, you can find almost everything! 🎉

Enjoy!!!
